The symmetry of this floor plan makes it a charming modular home option.CCO/csr_ch/Pixabay Boardwalk-style 2-storyAnother beachfront option, a boardwalk-style floor plan features a narrow and tall layout with a front porch. I've officially over explained myself. Can you print this on two sides? I actually use the blank sides for extra sketching space... it's how I think and a lot of the ideas in my head work themselves onto paper that way. It is how we are able to make this planner for free. All posts in chronological order, here. • Nothing makes us happier than seeing them put to good use. We didn't diverge much from 2016 so it would blend well if you added to it. So I prefer the blank sides. They may not be sold or redistributed in any way by anyone other than their original creator, Abby Lawson. And we're super thrilled to bring our free planner for 2017 back for anyone and everyone who starts their planning early! (Get your 2016 here!) We'll be honest... this year was tough to get it out. We're drowning in house rehab right now after relocating this spring, and just trying to find our new normal. :) At some point, we have to have boundaries. So it kind of is what it is. We know we can't please everyone. The options seen are the ones that are available. There are a ton of options here, no. & 8. We would recommend getting a few quotes, but the cheapest option will be at home if you already have a printer. It's probably not the most practical but it makes our planner feel official and stuff.
